

Candidate Information – Remote Invigilation

Dear Candidate,

You have received this document as you have registered to take a WSET exam. Due to the current global health pandemic WSET has introduced computer-based testing via remote invigilation (also known as remote proctoring or online exam) to enable you to sit your exam. This document contains all the information you need to ensure that you have a good exam experience. Please make sure that you read this document carefully and review again in the week before your exam date and time.

If you have any questions relating to your exam, please contact your WSET Approved Programme Provider (APP), the school or organisation where you registered to take your WSET qualification, as soon as possible to allow time for any questions to be answered.

We would like to take this opportunity to wish you luck on your exam.

With many thanks,

WSET

What is computer-based testing via remote invigilation?

Computer-Based Testing via Remote Invigilation (RI) will enable you to take your exam in an invigilated environment from your home where you will be monitored via webcam, screen sharing technology and a secondary recording device during your exam. A video explaining this in more detail can be found [here](#). Candidates in China should use the video linked [here](#) for more information.

Do I need an internet connection to sit an RI exam?

Yes, you will need strong and stable internet connection to sit your exam. Your internet strength will be tested as part of the systems check.

Please note that you should not tether an internet connection but rather have a WIFI or hardwired internet connection for the exam

How is my remotely invigilated exam different from a WSET paper-based exam?

The exam questions and the time the exam takes are the same as for a paper-based exam. These can be found in the relevant qualification Specification, which also explains how the exam is marked.

What is different is that you will be taking the exam by yourself at home, using a computer, instead of sitting a paper exam with other candidates at an exam venue.

I don't want to take a Remote Invigilation exam. Can I wait and take a paper-based exam later?

Yes! RI exams have been made available to support students who have been studying during the Covid-19 crisis, so that they don't have to wait too long for an exam. However, there is no problem if you would prefer to wait until it is possible to attend your APP for a paper-based exam. Please contact your APP to let them know as soon as possible. They will let you know when paper-based exams are available again.

When is my exam?

Your Approved Programme Provider (APP) will have confirmed the date and time of your RI exam with you. If you are unsure of your exam date and time, please contact your APP directly. Note that the starting time of the exam listed is when you will begin the exam set up. You will be instructed to then begin the exam when the set up is complete. The exam clock begins when you enter the exam.

If you require Reasonable Accommodations to sit your exam, please contact your APP directly to discuss.

Is the time of my online exam flexible?

No – if you need to change the date or time, please contact your APP as soon as possible. Please note that you may need to pay an additional fee to rebook in accordance with their published terms and conditions.

Can I take the exam at the same time as someone else in my house?

If you plan on taking an exam at the same time as someone who lives at the same address as you, please flag this for your WSET course provider as we may need to make special arrangements for you.

Note that multiple candidates taking an exam at the same time and at the same location can cause bandwidth to become insufficient.

Is my exam available in other languages?

No, an RI Exam and all corresponding documents are only available in English.

How will I know that I am registered for my remotely invigilated exam?

You will receive two or three emails from WSET once you have been registered for your exam:

Email 1: is sent 10 days before the exam and will contain information relating to what devices you need to sit an RI Exam. It will ask you to perform a Systems Check.

Email 2: is sent three days before the exam and will only be sent to those candidates who have not yet conducted a system check advising you to do so ASAP.

Email 3: is sent 72 hours before your exam and will include a link to access your exam.

If you try and access your exam early you will go to a holding page with a countdown timer that will show you how long it is until you can access your exam.

To ensure that emails are received directly to your inbox please add examsnoreply@wsetglobal.com to your approved senders list.

How will I know if my devices are suitable for an RI exam?

You will receive an email from WSET 10 days before your exam with information on how to perform a system check before your exam. This email will contain information relating to what devices are required for you to sit your RI exam but in brief, you will need:

- One device with a webcam and microphone to take your exam on such as a laptop or MacBook
- Plus, one device to record you taking the exam: a smart phone or tablet.

Please make sure that you read the Candidate Quick Guide contained in the system check email for more information.

A list of system and device requirements can be found in Appendix A. This system check is required.

Do I need to download anything ahead to take my exam?

As part of your system check you will be asked to download the ProctorExam APP onto your secondary device. This will allow your secondary device footage to be connected to your exam attempt and WSET to confirm that the exam conditions have been met.

This is the icon for the APP:

What browser should I use for my exam?

Please set Chrome to your **default** browser to take your exam and enable Adobe flash player. For information on how to do make Chrome your default browser, please click [here](#). For instructions on how to enable Adobe Flash Player, please click [here](#).

What happens if I experience a problem during my systems check?

There is an online chat function that you will be able to access during your systems check. This chat function will be able to answer any questions you have. The chat function is only available in English. Please remain patient and calm when waiting for assistance as the online chat function is helping multiple exam takers at the same time.

In the unlikely event that it is not possible to resolve your system check email via the chat function, please contact your APP as soon as possible noting your issue and the information below so we can attempt to resolve your issue with our provider before exam day:

- Nature of issue; device set up, internet, etc.
- Did you perform a system check and if so, did they experience any issues during the systems check?
- Type of device used in the system check; makes and operating systems
- Did you use the chat function and if so, was it helpful and timely in response time?

How should I set up my room for my remotely invigilated exam?

A video explaining how to set up your room for the exam can be found [here](#). Candidates in China should use the video linked [here](#) for more information.

When you take your RI exam you must be in the room by yourself. The presence of another person in the room is an exam violation. The secondary device that you must use should be set up 3m/ 10ft away from where you sit the exam and will need to clearly show you taking the exam from the side. Your secondary device should also be plugged in during the exam so please take time before your exam to think about how you will position your phone after the exam setup is performed to avoid any delays. Plan ahead to avoid exam day stress.

What are the exam regulations?

Please make sure that you read the Exam Violations noted in Appendix B below to ensure that you are aware of the conditions of your exam. Candidates agree to abide by the exam regulations and will not commit any of the exam violations noted in Appendix B below. Failure to abide by exam regulations may render your results invalid. If your exam is invalidated, you will need to resit the exam at your expense.

Should I put a sign on the door of the exam room?

We recommend that you put a sign on the door of your exam room. For your convenience we have attached a poster that you can print and use in Appendix D below.

Can I have anything on my desk?

You are only permitted to have your ID and a glass of water or water in an unlabelled bottle. Paper and pen on your desk and/or taking notes during the exam are not allowed.

Your guidance says that I cannot wear a watch, but can I have a clock in the room?

Yes. Due to the advancements and capabilities of smart watches it is not possible for you to wear a watch during the exam, but you can have a clock in the room.

You will also receive three on screen prompts when you have 30, 15 and 5 minutes left to complete your exam.

Should I log out of other programmes?

Please log out of any programmes that you may have open on your computer before you start your exam, Teams, Skype, etc. You might be able to access other programmes during your exam but doing so is an exam violation and will render your exam attempt void.

If you do receive a message of notification during an exam, please ignore this and do not respond but carry on with your exam.

What is the process immediately before my exam?

Prior to your exam starting you will be asked to show your official photographic ID as well as testing your webcam, microphone, speakers and internet connection. You will also be asked to show the room in which you are taking your exam by scanning your phone around your surroundings; this includes showing the four corners of your room, the ceiling and the floor. Please make sure that you scan your room slowly so that a clear recording is made of your exam surroundings. This process is very similar to the process you will follow during your systems check. Once you have successfully tested these functions you will be shown a keycode that you will need to enter the Exam Platform to sit your exam.

Please ensure that you are ready to take your exam when you begin your pre-checks on the day of your exam. You are not permitted a bathroom break during your exam. Please allow at least 30 minutes to set up for your exam.

What ID do I need to show as part of the identification check?

You will need to show official photographic ID that shows your name and has a photograph. When presenting your ID, ensure your name and photo are visible and able to be verified by the proctor.

It is essential that your ID is clearly visible. Please take it out of your purse or wallet and remove any covering. Hold it flat in front of the webcam when instructed, making sure that there is no glare or reflection and that your fingers are not covering any part of it. If an unclear image is captured, WSET will need to contact you for additional proof of ID before your exam attempt can be validated and your exam results issued.

What happens if the name on my ID does not match the name I am registered to sit the exam under?

When you register with your APP for your exam please ensure that the name you register under is the name that appears on your official photographic ID. Please contact your APP as soon as possible with an explanation for the difference with any supporting documentation or if a correction is required.

What happens if I have a problem during my exam?

If you experience a problem during your exam you will be able to access an online help chat and they will be able to investigate. The chat service is only available in English. Do not be concerned if you need to wait a few minutes for the chat service to respond to your message. It is important for you to know that if you start on-time, you should have enough time with an issue to enter the exam and complete it within the prescribed time frame. Set up time will not shorten the exam window.

If your secondary device loses internet connection during the exam, you will be prompted on screen to take steps to reconnect your secondary device.

What should I do if I experience an issue during my exam that cannot be rectified by the chat function?

If you experience an issue that cannot be resolved via the chat function before launching your exam, please contact your APP as they may be able to provide additional guidance.

If you experience an issue during your exam, please contact your APP as soon as possible after the exam with the information below:

- Nature of issue; device set up, internet, etc.
- Did you perform a system check and if so did you experience any issues during the systems check?
- Type of device used in the exam; makes and operating systems.
- Did you use the chat function and if so, was it helpful and timely in response time?
- Any error messages or screen shots.

What happens if I lose internet connection during an exam?

If you lose your internet connection during the exam, once reconnected you will be able to enter back into the exam by clicking on the link in the exam email. You will be able to resume your exam where you left off – you will not lose any exam time due to the lost connection. If you lose your internet connection your exam will be flagged by the invigilators and reviewed by WSET.

Do I have to close the ProctorExam app after my exam?

Yes. Once you have pressed Finished Test, click to confirm you want to finish your test on the popup windows. After your exam has been submitted, you are still be recorded until you close out of Proctor Exam. Select the “Finish Exam” button on the Launch page to stop recording and close the app on your secondary device.

Will I have instant access to my results?

No. WSET needs to perform quality checks on your results before we can confirm them to your APP. You will receive your results from your APP.

Will anyone watch the video of me sitting my exam?

Your exam will be recorded and watched by a Professional Invigilator and any violations will be reported to WSET for review and action. The recording of you taking your exam will not be shared with your APP. A copy of the recording will be kept for 6 months. This is in line with our Privacy Policy and will only be reviewed for quality assurance processes.

Please familiarise yourself with the Privacy Policy relating to RI exams found in Appendix C.

Appendix A – Remote Invigilation Devices

To sit a remotely invigilated exam it is recommended that the devices you intend to use meet the following technical requirements. You will need two devices as follows:

Device One (to take the exam on):

Device	Requirement
Bandwidth	1Mbit/s to 1.5Mbit/s. Tethering is not supported
Browser	Latest version of Google Chrome Enable Adobe Flash Player 18 to 28.0.0.161
Webcam	Maximum resolution of 1280 x 720
Screen Resolution	Recommended resolution 1440 x 900
Microphone	Required
Audio	Required
PC	Windows 8 or higher
Mac	Mac OS X and previous releases
Linux	64-bit Ubuntu 14.04+, Debian 8+, openSUSE 13.3+, or Fedora Linux 24+

Devices not supported for Device One:

Google Chromebooks, Android tablets (Nexus 7, etc.), iOS tablets (iPad, iPad mini, etc.), and Microsoft Surface RT.

Device Two (for recording the exam room):

Device	Requirement
Mobile Device	You will need a mobile device or tablet on which you will download the ProctorExam app. Instructions for downloading the app will be provided during the system check process
Android device specification	4.1 or higher
iOS (Apple) device	8.0 or higher

Appendix B- Exam Violation

Please note that you must not commit any of the violations noted below. If you are found to be in violation of any of the below a misconduct investigation will be carried out by WSET. By taking a WSET remotely invigilated exam you are agreeing the following:

Candidates agree to abide by the exam regulations. Failure to do so may render a candidate's results invalid and the candidate may have to resit the exam at their expense. WSET reserves the right to permanently exclude candidates found guilty of misconduct from WSET qualifications

List of Exam Violations:

Highlighted violations are violations that candidates commit most often knowingly or unknowingly.

AREA	VIOLATION
TECH & SET UP VIOLATIONS	Unable to see full room scan
	Unable to see ID clearly/invalid ID
	Unable to see ear check
	Wi-Fi drops during exam
	Web cam on laptop angled up/face obscured
	Webcam drops during exam
	Secondary Device video drops during exam
	Lag in Videos
	Issues caused by use of unsupported technology
	EXAM ROOM SET UP VIOLATION
Having bottles or cases; wine, spirits, sake etc. on display in the room	
Paper and/ or pen on desk	
Notes around the room	
Visual aids that could be of assistance e.g. pictures, maps, service equipment, etc.	
Room is too dark	
Labelled bottle of water on the desk	
BEHAVIOUR VIOLATIONS	Accessing other applications, such as Word/Excel or their folders/Windows explorer/Teams
	Accessing web pages; other than those needed for your exam

	Referring to any material, in whatever form, other than the on-screen exam
	Using electronic devices of any kind e.g. mobile phone/tablet/smartwatch, etc. other than those needed for the exam
	Using multiple screens
	Attempting to record or reproduce the content of exam papers or to reveal the content to others
	Taking notes during exam
	Taking photographs
	Leaving the room
	Other people entering or being in the room
	Opening drawers or cupboards within the room
	Looking at your hands or wrists for a prolonged time
	Repetitive behavior; continuous abnormal eye movements to a specific area
	Talking
	Using audible alarms or other audio prompts
	Vaping/smoking
	Wearing a watch of any kind, clocks are permitted in your room
	Wearing earplugs or headphones
	Wearing sunglasses or smart glasses

Appendix C-

Remote Invigilation Privacy Policy

We, WSET, provide remote invigilation as a service via our supplier, BTL Group Limited. If we, WSET, offer you (candidate) a test/examination through the online invigilation platform that BTL provides (powered by ProctorExam) and if you choose to take such test/examination through the platform, you agree that you are being monitored over the Internet through your computer via your webcam and microphone during your exam session. Remote invigilation means that you will log on to a test platform through the internet to take your assessment and you will be monitored, sometimes in real time, during your entire assessment session so that your face, voice, desk and workspace will be captured and a recording will be made of these for the purposes of assessment security and the integrity of the assessment process. It is your responsibility to ensure that only you will be recorded during an online invigilation testing session and that no one else will be physically in the room where you are testing and that no one speaks to you during your testing sessions.

If you use the remote invigilation service to take assessments, BTL may also collect and record further information about you when you take the exam which is online invigilated, such as your name, email address, captured facial photo, captured ID photo/government issued ID, physical (visible) health data/condition (by virtue of video recording), racial/ethnic origin/religious beliefs (by virtue of video recording), IP address, browser agents, browser and operating system identifiers, screenshots of your PC, your exam setting (home, office etc), all recorded video streams (computer, webcam and mobile), name of the exam you are sitting and other assessment based data that may be collected, including information about browser version, appVersion, appName, product and appName, video frame size, type and library used for encoding, framerate, jitter, packet loss and bandwidth.

The video and audio recordings are standard test procedures for all awarding organisations' online invigilated tests and your video and audio recording will be used for purposes of identity verification, online observation, incident resolution such as fraud prevention, test security and for the integrity of the test and testing process.

All of the same personal data that BTL collect or receive as described above re Surpass applies for all awarding organisation's online invigilated tests. Prior to the start of your remote invigilated test you may be required to take a picture of yourself. The collection of such data is optional, but necessary if you choose to use the remote invigilation function. You understand that the audio and video recordings of your testing sessions, as well as photos, will be supplied in certain circumstances to us, the awarding organisation, to assist with the test management of your test.

BTL will retain your personal data no longer than is necessary for the purposes for which it is processed. The length of time for which BTL retain information may also depend on the specific retention periods set out by us, your awarding organisation, and applicable laws.

When you use the remote invigilation service, BTL use selected third party service ProctorExam that is hosted in in Germany (Frankfurt Region), to process your data on our behalf. As part of the provision of the service by BTL to us, your awarding organisation, you agree that some or all of the above personal data may be processed outside the UK and EEA. In such circumstances, and if you are based in the UK or EU, we will, as required by GDPR, ensure that your privacy rights are protected by appropriate safeguards.

As part of the remote invigilation services you also agree to allow your personal data to be transferred by BTL to us, your awarding organisation, from whom you seek certification. We require your personal data so that tests can be correctly administered, and certification can be processed, granted and administered. For more information about how WSET, your awarding organisation, may collect and use your personal data we encourage you to review our full privacy policy.

Appendix D- Exam Posters

If you would like PDF versions of the poster shown on this page and the next page, please email your Approved Program Provider prior to your exam date and time.
